

**JUST CHILL IT**

**SUPER 6TON HYDRAULIC- SMALLER SIZE/ FASTER CHILLING**

**CHILL TIMES: APPROX. 10,000lbs OF WATER/FISH FROM 55°F TO 34°F IN 5 HRS**

**6TON  
HYDRAULIC  
DRIVE RSW**

The PAC WEST SUPER 6Ton Hydraulic Drive RSW is built to replace the mini 5 ton RSW. It is designed using the Jabsco pedestal mount condenser pump that is easy to rebuild and the Pacer circulation pump with a full 2" water flow. The Signature TITANIUM TURBO CHILLER and low vibration compressor make this unit durable, lightweight and quiet. The Overall length is only 30.5"L making this our most compact system yet.

**DON'T DRAW UNWANTED HORSEPOWER OFF YOUR ENGINE. BUY A SYSTEM THAT IS SIZED WITH THE CORRECT HYDRAULIC MOTOR FOR THE JOB.**
